

Gloriae[®]

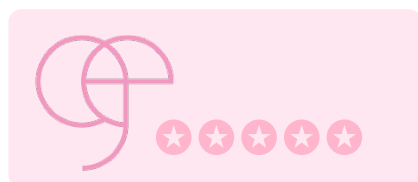

5 Actions Plus
A Copy Of Nothing

An Innovation by **Global Experts**

Why Gloriae® 5 Actions+ is Different ?

Gloriae® 5 Actions +: Science That Redefines Skin Transformation

Combining advanced technologies and scientifically proven ingredients, Gloriae sets a new standard in aesthetic dermatology.

Gloriae® 5 Actions Concept: Science Meets Synergy for Unparalleled Results

Each product in the Gloriae® line is meticulously formulated to deliver 5 synergistic mechanisms of action, powered by 5 scientifically proven ingredients. These mechanisms work in harmony to address specific skin concerns with unmatched efficacy.

From brightening and regeneration to hydration and barrier repair, every Gloriae® product is a testament to the power of advanced science and innovation, offering dermatologists and patients transformative results like never before.

Gloriae® Plus (+) Uniqueness:

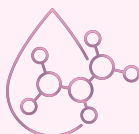

- **Hydro-Lattice Encapsulation™:**
Long-lasting release and precision delivery of actives.

- **CAAC™ Technology:**
Promotes collagen renewal and structural repair.

- **Self-Crosslinked HA:**
Delivers superior hydration, elasticity, and firmness.

- **Dual GM Method™:**
Scientifically crafted dual-layer injection protocol for comprehensive rejuvenation.

Hydro-Lattice Encapsulation™

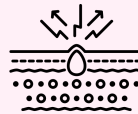

A next-generation delivery system ensuring sustained release and deep skin penetration for prolonged action and minimized irritation.

Long-lasting hydration

Reduced inflammation post-treatment

Painless injection

Protecting sensitive ingredients

Controlled, targeted delivery of active ingredients

Self-Cross linked HA

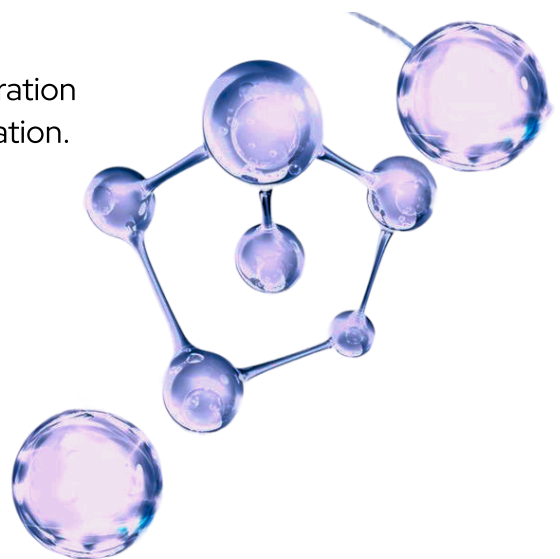

An advanced form of Hyaluronic Acid providing deep hydration and structural support without toxic cross-linkers, or volumization.

Benefits For Skin:

- Long-lasting moisture retention 3-4 times more.
- Enhanced skin plumpness and elasticity.
- Reduces fine lines and wrinkles.

Benefits For The Formula:

- Forming the Lattice Capsule.

CAAC™ Technology

Collagen Amino Acid Complex designed as a mirroring of the human collagen sequence and ratio, to ease and speed up the fibroblast activity and enhance extracellular matrix repair, providing the Collagen Building blocks ready for the fibroblasts.

Key Amino Acids:

Glycine (Gly):	~33%
Proline (Pro):	~10-13%
Hydroxyproline (Hyp):	~9-11%
Alanine (Ala):	~11%
Lysine (Lys):	~2%
Hydroxylysine:	~1%
Glycosaminoglycans (GAGs) - Water - Lipids	

Collagen Amino Acid Complex **CAAC™** is the most safe yet effective Bio-Stimulator, that can be safely injected through all skin layers helping stimulate repair and new collagen formation from the Epidermal Basal Layer Membrane Collagen, through the Dermis Collagen and Elastin Fibers, to the Subdermal collagen membrane, and as well the Hypo-dermal Collagen Fibers.

CAAC™ Benefits:

- Works as collagen building blocks that boost collagen synthesis.
- Supports skin elasticity and firmness.
- Promotes structural repair.

Dual GM Method™

Dual Grid Mapping Method™: A revolutionary dual-layer protocol combining epidermal micro-injections and sub-dermal fanning for complete skin rejuvenation, and restimulation.

Why Dual GM Method™ ?

- Triple-layer action for hydration and structural repair.
- Tailored application for different treatment areas.
- Minimal downtime with maximum results.

Comprehensive Multi-Layer Rejuvenation

1. Epidermis (Micro Blips)
2. DEJ
3. Dermis
4. Subdermal Layer (Fanning)
5. Hypodermis

Gloriae® Light

Advanced Regenerative Whitening Solution ... With 5 Actions +

Why Gloriae® Light is Different?

Gloriae® Light transcends traditional whitening solutions, delivering scientifically advanced results that treat pigmentation, uneven skin tone, and dullness at the source.

With 5 Whitening Actions, Gloriae® Light targets multiple pathways to achieve unparalleled results in skin clarity and brightness.

Gloriae® Light : 5 Whitening Actions

1- Tranexamic Acid

- Inhibits **plasminogen** activation, reducing inflammatory **mediators** that activate melanogenesis.

- Suppresses melanocyte activation, preventing pigmentation, reducing post-inflammatory hyperpigmentation.

2- Arbutin

- Inhibits **tyrosinase activity**, a critical enzyme in the melanin production pathway.

- Directly blocks melanin synthesis at the source, effectively targeting hyperpigmentation and age spots.

3- Glutathione

- Neutralizes **free radicals** and reactive oxygen species, which trigger tyrosinase activation.

- Reduces oxidative stress and tyrosinase activity, promoting a brighter and more even skin tone.

4- Alanine

- Supports keratinocyte energy production and renewal, enhancing **skin turnover**.

- Accelerates the replacement of pigmented cells with new, healthy ones, contributing to a brighter appearance.

5- Niacinamide

- Prevents **melanin transfer** from melanocytes to keratinocytes; strengthens the skin barrier.

- Reduces dark spots by limiting melanin deposition in the upper skin layers while protecting against future pigmentation.

Gloriae® : Plus+

Hydro-Lattice Encapsulation™

CAAC™ Collagen Amino Acid Complex

Self Cross Linked HA (100mg)

5ml Dual GM Method™

Gloriae® Tight

Advanced Regenerative Rejuvenation Solution ... With 5 Actions +

Why Gloriae® Tight is Different?

Gloriae® Tight is more than a skin booster; it is a revolutionary approach to skin regeneration. By targeting the core mechanisms of aging, Gloriae® Tight provides unmatched efficacy in restoring elasticity, hydration, and firmness through its unique 5 Actions.

These **5 synergistic actions**, powered by a blend of cutting-edge technologies and scientifically proven ingredients, deliver unparalleled results.

Gloriae® Tight : 5 Bio-Stimulation Actions

1- Succinic Acid

- A metabolic intermediate in the Krebs cycle, boosting **cellular energy** production (ATP).

- Stimulates skin cell metabolism.
- Reduces oxidative stress, delaying aging.

2- PDRN

- Stimulates cellular **repair**.
- Provides **nucleotides** as building blocks for cellular DNA repair.

- Enhances dermal regeneration, improving elasticity and firmness.
- Accelerates skin healing and repair.

3- DMEA

- Boosts **acetylcholine** levels in the skin, improving **muscle tone** and firmness.

- Provides an immediate tightening effect, reducing sagging and fine lines.

4- Arginine

- Enhances cell proliferation, migration, and repair mechanisms, Healing **Skin Barrier** by supporting NMF.

- Accelerates healing of damaged skin and minimizes scarring.
- Improves skin hydration and strength.

5- Tetrapeptide 72

- Signaling **Transforming Growth Factor-beta** (TGF-β) > Fibroblast activation > Type I and III collagen.

- Regulates Matrix Metallo-proteinases (MMPs) enzymes responsible for breaking down collagen and elastin.

Gloriae® : Plus+

Hydro-Lattice Encapsulation™

CAAC™ Collagen Amino Acid Complex

Self Cross Linked HA (100mg)

5ml Dual GM Method™

Gloriae® 5 Actions +

Gloriae® Line is clinically designed to be applied to all face and body skin safely, no fear of sensitivity or reactions. (Face - Neck - Under Eyes - Sensitive Areas - Hands ...)

Protocol:

- **General Occasional Rejuvenation:** 1 session 5-14 days before occasion.
- **General Prophylactic Anti-aging:** 2 sessions / year.
- **For treatment dermatology disorders:** 3-5 sessions, spaced monthly. (+Home Care) microneedling complementary same session or after 2 weeks.

Gloriae® Light is clinically designed for:

>> Hyper-pigmentation, Dark Spots, Dull, Uneven Skin Texture, Sensitive & Stressed Skin, ...

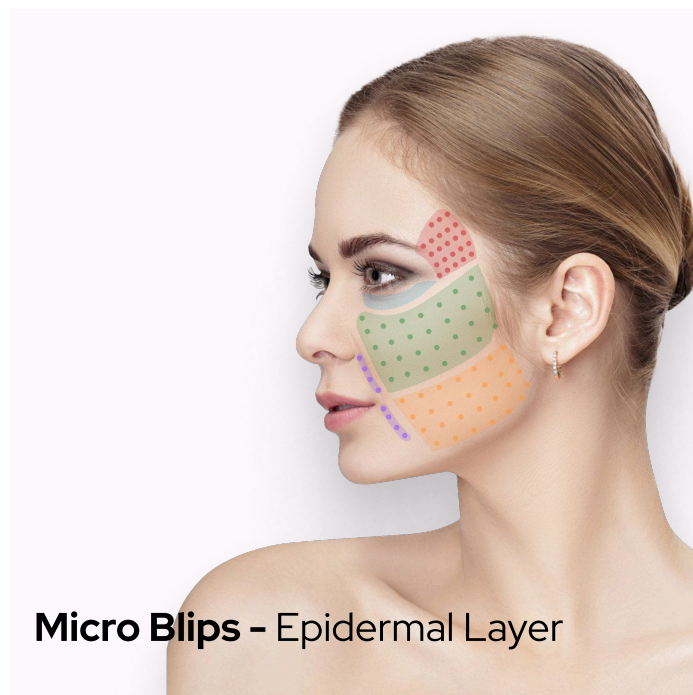

- ✓ - Face ✓ - Neck ✓ - Under Eyes
- ✓ - Hands ✓ - Sensitive Areas

Gloriae® Tight is clinically designed for:

>> scars, wide pores, fine lines, saggy skin, loose skin, dehydrated skin, ...

- ✓ - Face ✓ - Neck ✓ - Under Eyes
- ✓ - Hands ✓ - Sensitive Areas

Dual GM Method™

Science Meets Responsibility

- We prioritize biodegradable materials, sustainable sourcing, and ethical production methods, ensuring minimal environmental impact.
- Our cruelty-free and responsibly sourced ingredients reflect our dedication to ethical beauty and patient well-being.

Transform
Your Skin with

The Gloriae line is not just another anti-aging solution, it's a revolution in skin regeneration.

Powered by science, driven by expertise, and perfected through innovation, Gloriae is the future of non invasive, high-performance aesthetic care.
